

LA PALETTE DEL RAFFINATO

La palette colori del Raffinato è come un abito elegante a cui abbinare accessori selezionati e brillanti.

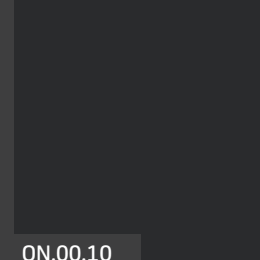

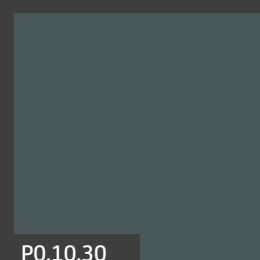

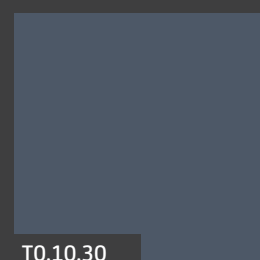

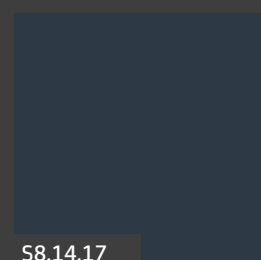

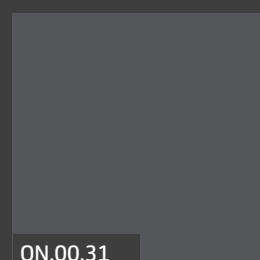

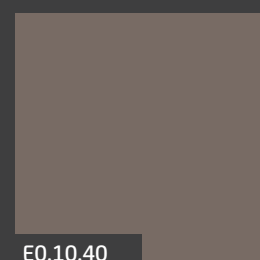

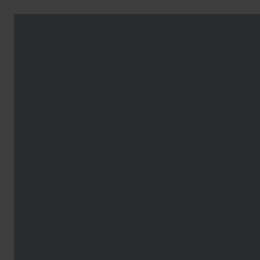

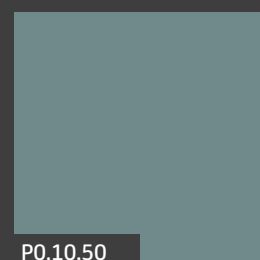

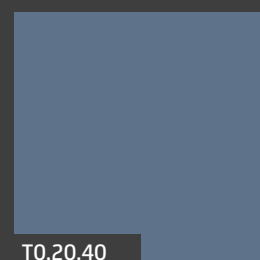

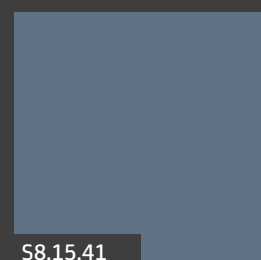

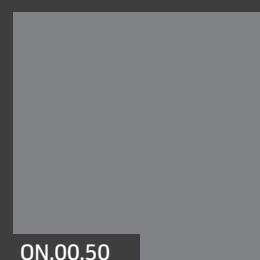

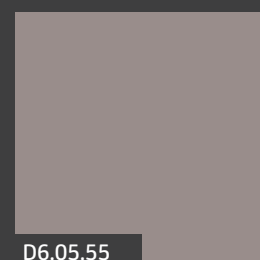

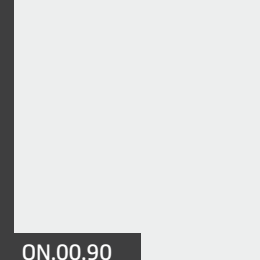

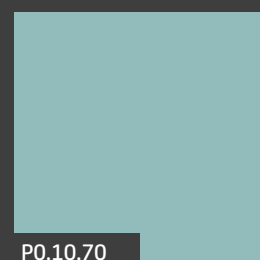

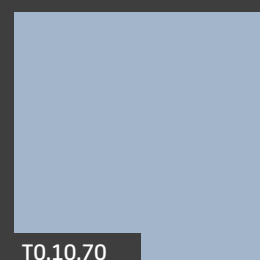

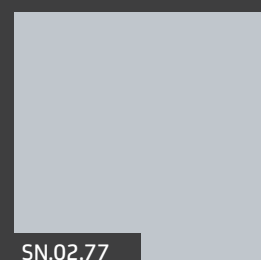

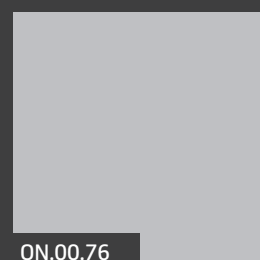

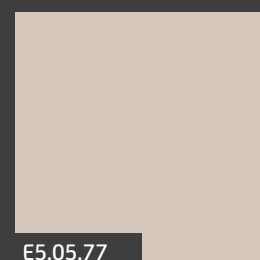

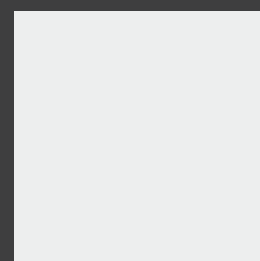

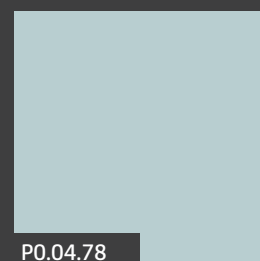

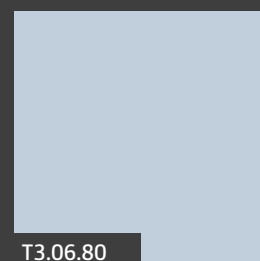

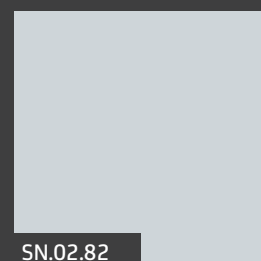

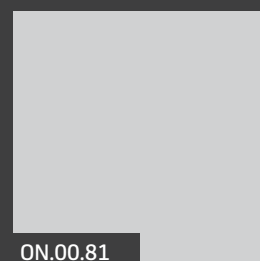

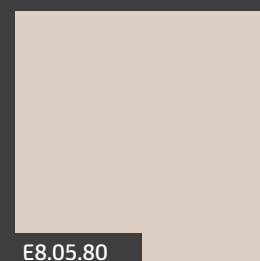

Lo schema cromatico del Raffinato utilizza i toni neutri dei grigi secondo diverse gradazioni di luminosità, volte a identificare ambienti differenti. Accenni di colore si inseriscono in questa collezione di grigio come fossero dettagli preziosi.

Alpha Metallic è l'effetto decorativo che, in abbinamento con la palette colori, dona un taglio più glamour all'ambiente. Anche **Pietra Urbana** è una mise perfetta per donare raffinatezza alla pareti. Nel caso si scegliesse il legno, sarebbe una caduta di stile uscire dalle tonalità della palette.

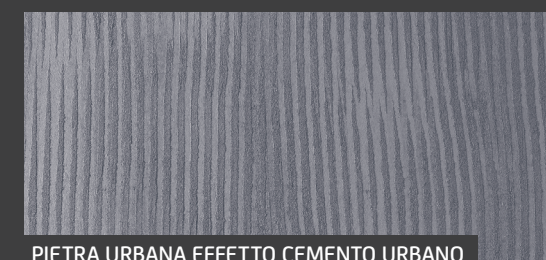

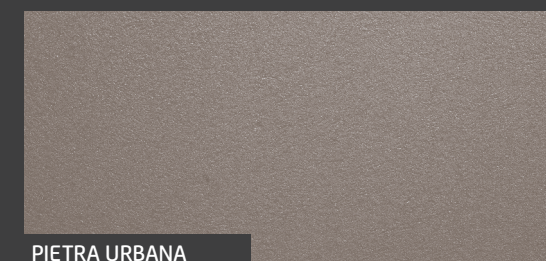

Catturando il Qr Code a pag. 4 o su www.sikkens.it/colori è possibile scoprire le nostre collezioni colori.

TONALITÀ

FINITURE MURALI

I codici colore delle palette caratteriali della presente pubblicazione sono delle rappresentazioni a stampa e quindi solo indicativi delle tinte reali. Ogni tonalità va verificata con la pastiglia colore reale delle singole collezioni Sikkens proposte.
